REPLACEMENT RIGS AVAILABLE:

Why micro jigging is hot!

There is a simple reason why micro jigs are the size that they are: To allow the angler to work the lure in such a way as to encourage the fish to strike. This lure is another awesome way to stimulate bite when the fishing is tough.

- Light weight maximising time in the water, increasing your chances of catching more fish
- Great for both shallow and deep water fishing tackle as you would for soft baiting
- Irresistible fluttering fall action that stimulates aggressive bites
- Uses the same light weight fishing tackle as you would for soft baiting
- Lightweight high-strength assist hook and braid

COLOURS: Orange Assassin, Ballistic Blue, Green Reaper, Shady Lady

DEEP V SLOW PITCH

The Deep V is a versatile lure for catching kingfish, XXL snapper and many other species. It combines several design features to present a lure that is irresistible.

- Stimulates aggressive action on the drop & retrieve
- The V shaped keel gives the lure stability and a twitching action as it descends at around 45 degrees, simulating a dying fish
- Super bright holographic finish and glow in the dark underside to attract fish from further away
- Rigged with strong 450lb Kevlar assist cord and 11/0 stainless steel hooks with flash
- Stainless 300lb solid ring and 120lb assist cord split ring

COLOURS: Ballistic Blue, Orange Assassin, Shady Lady, White Warrior

WEIGHTS: 170g, 280g

L'II SQUIDWINGS®

Casting • Jigging

Squidwings® is a huge leap forward in fishing technology.

Working on the premise that almost all fish eat squid, Catch set about designing a lure that could be used by shore based or boat anglers. The secret is in the design of the wings, given the lure stability and an awesome action that fish find irresistible when cast, trolled or slow jigged.

Additionally, we have included glow in the dark paint, holographic, and glitter, combined with super strong hooks to make this the ultimate lure for catching fish.

L'II Squidwings comes rigged with Twin hooks with 80lb dyneema and has a swimming action on descent.

COLOURS: Dark Shadow, Dusty Shadow, Lethal Lumo, Orange Assassin, Shady Lady, White Warrior

WEIGHTS: 28g

WATER WINGS®

You can add them to almost all lures....softbaits, kabura, slow-pitch jigs to name a few... to add some crazy fish attracting action that can be made to look like a swimming fish, or the tentacles of one of the cephalopods. water wings are buoyant, so they will keep working to attract fish, even when your lure is doing nothing. you can even add water wings to a dead bait to make it look alive.

These are another huge step forward in fishing technology, and can be used to target almost all species of fish

- Irresistible to snapper, kingfish and most fish species
- 4 UV infused colours to choose from: Shady Lady (pink), Orange Assassin, Engine Oil and White Warrior (glow in the dark)
- These can be added to any lure, even to bait rigs by attaching a split ring through the centre
- Constructed from strong tough TPE (thermoplastic elastomer) meaning they with a lot of stretch and withstand bites without being bitten off like inferior softbaits

STICK BAITS

Hand Made Stick Baits

The hand-made Stick Bait from Catch is carved from mahogany wood, supplied from a renewable forest. They feature 304 stainless steel through wire, brass or stainless-steel ballast, and a 4-resin coating system to protect the paint.

Each lure takes around 6-8 weeks to hand make, and is individually tested to make sure it has the correct swimming action.

The lure will dart, weave and pop on the retrieve to create the illusion of a panicked baitfish. It is suitable for targeting kingfish, tuna, trevally, marlin and many other species.

They are supplied without hooks, and available in 7 vibrant finishes.

COLOURS: Red Ripper, Mad Mahi, Ballistic Blue, Cyan Supreme, Paua Power, White Warrior and Black Ninja (from left to right).

LENGTH: 180mm

WEIGHTS: Floating 90g, Sinking 130g (approximately)

Sinking

Floating

CHARLIE CHUGGA

Charlie Chugga Hand Made Poppers

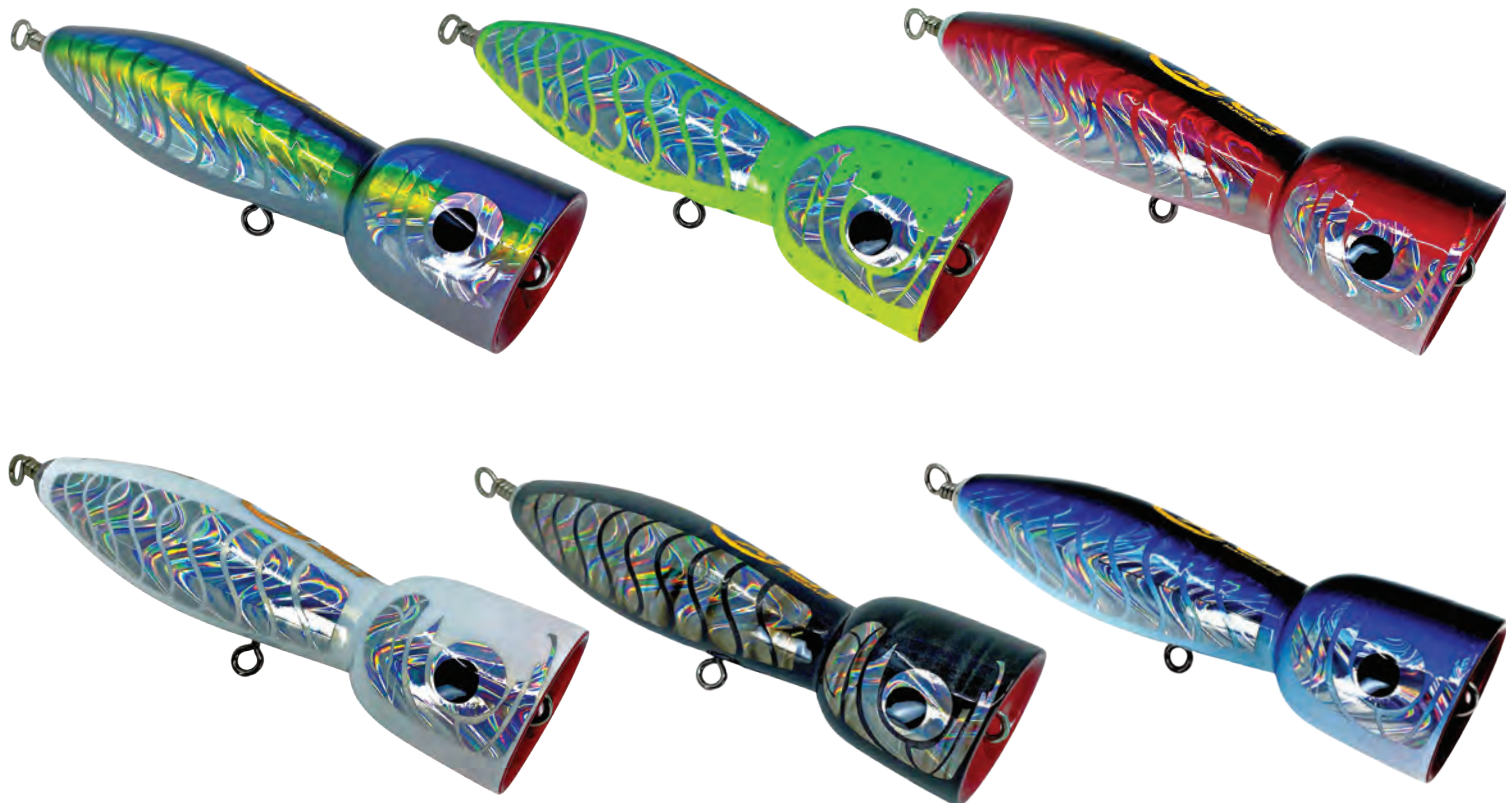

The hand-made Stick Bait from Catch is carved from mahogany wood, supplied from renewable forest. They feature 304 stainless steel through wire. Japanese NT swivel, Brass or stainless-steel ballast, and a 4-resin coating system to protect the paint.

Each lure takes around 6-8 weeks to hand make, and is individually tested to make sure it has the correct action.

The Charlie Chugga is designed to give the maximum pop for minimum effort, creating a thrundering pop when the cup catches the water. Combined that with a huge bubble trail and wiggle, and this lure is perfect for targeting kingfish, tuna, trevally and many other species.

They are supplid without hooks and available in 6 vibrant finishes.

COLOURS: Ballistic Blue, Mad Mahi, Red Ripper, White Warrior, Black Ninja and Cyan Supreme.

STRAT POPPERS

Hand Made Strat Poppers

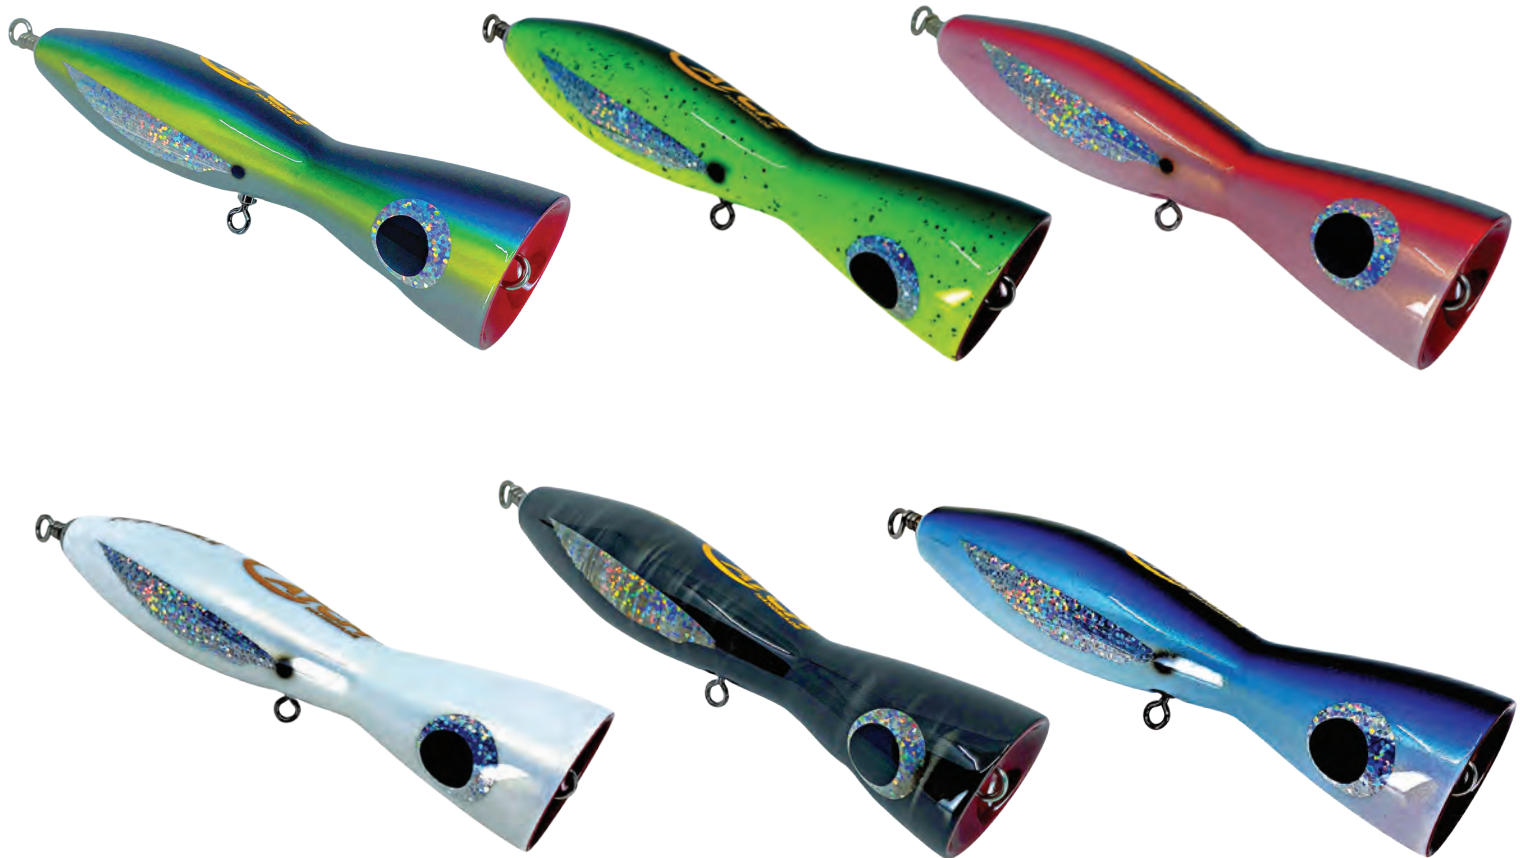

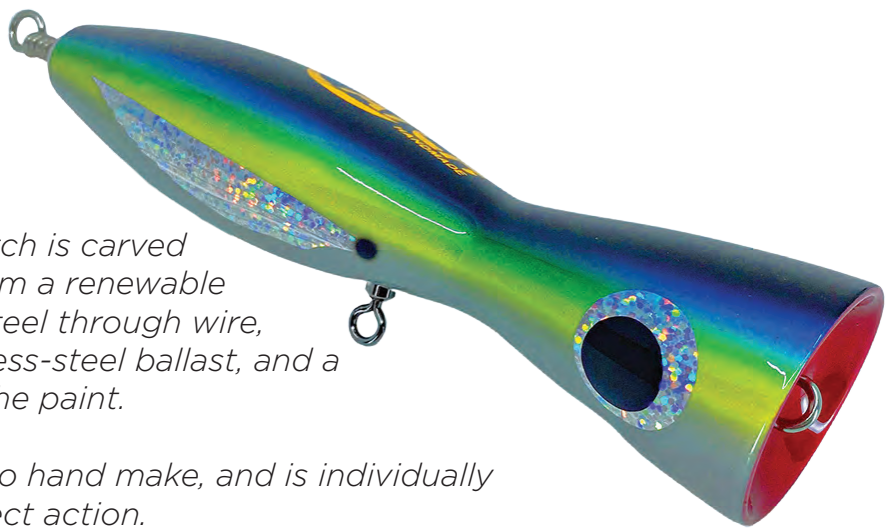

The hand-made Stick Bait from Catch is carved from mahogany wood, supplied from a renewable forest. They feature 304 stainless steel through wire, Japanese NT swivel, Brass or stainless-steel ballast, and a 4-resin coating system to protect the paint.

Each lure takes around 6-8 weeks to hand make, and is individually tested to make sure it has the correct action.

The Strat Popper is designed for long distance casting. A large cupped mouth creates a lot of surface action that draws fish in from far away.

The lure is perfect for targeting kingfish, tuna, trevally and many other species. They are supplied without hooks, and available in 6 vibrant finishes.

COLOURS: Ballistic Blue, Mad Mahi, Red Ripper, White Warrior, Black Ninja and Cyan Supreme.

ZINGAZ®

20g & 30g Stick Bait

The Zingaz Stick bait from Catch is manufactured from a heavy duty ABS thermoplastic polymer.

The lure will dart, weave and pop on the retrieve to create the illusion of a panicked baitfish. It is suitable for targeting kingfish, snapper, barramundi, tuna, trevally, and many other species.

Rigged with 1/0 (120mm) and 3/0 (150mm) single hooks to prevent damage to the fish and increase safety to angler.

Available in 5 vibrant holographic finishes of Ballistic Blue, Green Reaper, Black Ninja, Orange Assassin and Cyan Supreme.

www.catchfishing.pro

180mm Stick Bait

The Zingaz Stick bait from Catch is manufactured from a heavy duty ABS thermoplastic polymer.

The lure will dart, weave and pop on the retrieve to create the illusion of a panicked baitfish. It is suitable for targeting kingfish, GTs, tuna and even billfish.

Rigged with 6/0 inline hooks to prevent damage to the fish and increase safety to angler.

Additionally, we have added rattling ball bearings that create a harmonic in the water, triggering aggressive behaviour in many fish.

Available in floating (90grams) and sinking (120grams) and in 5 vibrant holographic finishes of Ballistic Blue, Green Reaper, Black Ninja, Orange Assassin and Cyan Supreme.

SPINNING REELS

Catch IRT Reels are hand made in USA, and tested around the world on charter boats to withstand the toughest of fishing conditions. IRT Reels takes great pride in the strength, smoothness, and durability of the drag systems. With a carbon fiber-Kevlar main drag, all IRT reels perform in a size above their class. Our Dual Drag technology provides the angler with extra maximum drag capacity that has become the most respected in the industry. They carry a 5-year warranty on manufacturer's faults.

IRT 200

GEAR RATIO: 5.9:1

MAX DRAG: 14kg

WEIGHT: 360g

BRAIDED LINE CAPACITY: 250m/PE2

COLOUR: Black and Gold

BEARINGS: 9

RETRIEVAL RATE: 68.5cm/crank

DRAG: Carbon Fiber Kevlar Drag system

6 internal seals, to withstand saltwater. An innovative spool shape, designed to cast braided line, cuts down on wind-knots and improves line-lay to maximize capacities and save the angler frustration. A new high-speed stainless-steel pinion gear provides a gear ratio capable of achieving unmatched line retrieval in a reel this size.
